FAUTEUILS SOFTSEATING

COLLECTION 2008

L'année 2008 est l'occasion pour Logiflex d'enrichir sa gamme de fauteuils et de canapés de plusieurs modèles tout confort. Accueillants et bien conçus, offrant un choix inégalé de rembourrage, de cuirs et de tissus de revêtement, les nouveaux modèles Flint, Bulexi, Robi, Tobi, Infiniti, ainsi que les tables d'appoint, ajoutent une note actuelle aux réceptions et aux bureaux et s'agencent aisément à tous les styles, classiques ou contemporains.

Logiflex continue également de fabriquer ses populaires modèles Stelli, Alpha et Sedia, des indémodables qui séduisent toujours autant les acheteurs.

Grâce à la compétence et la flexibilité des équipes de design et de fabrication de Logiflex, vous pouvez créer votre propre mobilier en combinant les composantes que vous préférez — pattes, finis, tissus et densité de rembourrage — selon ce que vous recherchez.

Style, confort, atmosphère. Logiflex évolue avec vous.

For the year 2008, Logiflex is enhancing its seating line with several new soft chairs and couches. Comfortable and well-built, with an unparalleled choice in upholstery, leathers and fabrics, the new Flint, Bulexi, Robi, Tobi and Infiniti models, along with their end tables, will add a current touch to reception areas and offices, fitting in easily with any style, classic or contemporary.

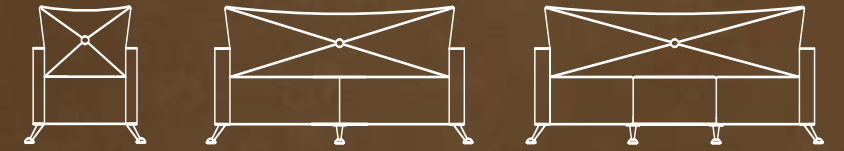

Logiflex also continues to manufacture its popular Stelli, Alpha and Sedia models, which never fail to seduce buyers and never go out of style.

Thanks to the competence and flexibility of Logiflex's design and manufacturing teams, you can create your own furniture by combining your favourite components—feet, finishes, fabrics and upholstery density—according to your needs and desires.

Style, comfort, atmosphere. Logiflex evolves with you.

TABLES FLINT

20

A close-up, low-angle photograph of a metallic, oval-shaped fastener or bolt head. The fastener is centered in the upper half of the frame, with three dark lines radiating from it towards the corners, suggesting it's part of a larger structure. The lighting is dramatic, highlighting the metallic texture and the sharp edges of the fastener against a dark, shadowed background.
